Weaving business

## Complex Weavers

- promotes weaving that goes beyond plain weave through education related to complex weave structures
- inspires through research, documentation and innovative concepts
- encourages members to discover and develop their own creative ideas
- supports the continuous exchange and sharing of information
- fosters enthusiasm, excellence and expertise

There is no requirement for a particular number of shafts or type of loom, nor is it limited to professional weavers.

## Is it for you?

Are you a weaver who:

- wants to explore ideas?
- sets yourself challenges?
- is always curious to know more?
- loves to share what you've discovered?

Complex Weavers is open to weavers anywhere in the world who want to increase their knowledge and expand their horizons

## Membership form

*"Complex weaving is about the ongoing pursuit of considering the infinite possibilities when crossing two threads. It transcends the number of shafts on a loom or the spectrum of hues on a color wheel since it is only the imagination that limits a weaver."*

- Robyn Spady

# Member Services

As a member of Complex Weavers, you will have:

- the *CW Journal*, published three times a year
- access to the extensive CW lending library of books, periodicals and study group notebooks
- more than twenty study groups you can join
- the opportunity to attend our biennial conference, CW Seminars

as well as becoming part of an international community of like-minded weavers

## CW Publications

### CW's Greatest Hits

a book of members' favorite drafts

### CW Newsletter Compilations I, II

containing articles from the Journal

### Peter Collingwood - Weaver

an extensive interview and technical demonstrations (2 DVD set)

### Early Weaving Books on CD

4 CD set

# Study Groups

An ongoing and vital part of Complex Weavers, study groups are self-organized and financed, producing samples, newsletters or other materials for exchange among members. Groups are formed as demand arises. Currently active Study Groups include:

- Bateman Weaves
- Beyond Plain Weave Garments
- Bobbin Lace
- Collapse, Pleat and Bump
- Computer Aided Design Exchange
- Computer Tools
- Crackle
- Double Harness Weaving
- Double Weave
- Early American Coverlets
- Early Weaving Books & Manuscripts
- Fine Threads
- Jacquard
- Japanese Textiles
- Kumihimo on the Takadai
- Lace Weaves
- Medieval Textiles
- Sample Exchange - the Old Fashioned Way
- Sixteens
- Structure
- Tied Weaves
- Twenty-Four More or Less

*You must be a member of Complex Weavers to belong to a CW study group.*
